HALF EURO IN USE

# THE HALF EURO LID

## OPERATION

**To apply:** Position the Loadhog lid on the top of the load

Draw the webbing out by pulling out the hook bar

Attach the hook to the runner either side of the centre block holding with foot without bending

Rotate ratchet 'to and fro' until the strap is at your required tension

Repeat sequence for all straps

**To remove:** Slide release button fully to the left

**To unlock:** Push handle firmly to the left until you hear a click and tension releases

Repeat sequence for all straps

CAUTION
